```

A mind map with a central node '安装MySQL' (Install MySQL) in a white box. It branches into three main paths: 1. A green line to 'sudo apt-get update'. 2. A blue line to 'sudo apt-get install mysql-server', which further branches to '安装过程中输入用户名与密码' (Enter username and password during installation). 3. A purple line to '服务命令' (Service commands), which further branches into three sub-commands: '启动服务' (Start service) leading to 'sudo service mysql start', '停止服务' (Stop service) leading to 'sudo service mysql stop', and '重启服务' (Restart service) leading to 'sudo service mysql restart'.
